Reference projects

Einfamilienhäuser

Courtyard Waberg, Adetswil

2024

The St. Michael Association runs the Waberg farm, which provides a home and work for people in need of support. Timbatec was responsible for the timber engineering, fire protection, and building physics aspects of the farm renovation.

Barn Dingenhart, Frauenfeld

2024

The «Dingenhart» detached house project breathed new life into an old barn in a picturesque hamlet near Frauenfeld, creating an eye-catching building made of wood and exposed concrete.

The rock in the surf, New York

2023

A wooden building in a class of its own: Christian Wassmann skillfully integrated a rock into the new home for his family. We were allowed to accompany the project in New York as structural engineers.

Terraced single-family houses Enzenbühlstrasse, Zurich

2023

In district 8 on Enzenbühlstrasse in Zurich, two terraced single-family houses, each with four units, were built as hybrid constructions.

Usterstrasse Development, Illnau

2020

The new single-family houses are located directly in the historic center of Illnau. Due to the modern wooden construction as well as the wooden roofing, contemporary comfort and historical charm were optimally combined.
